Chittenden, VT 05737

March 1, 2012

Dear Rob,

On behalf of the Enfield Village School, I would like to thank you for the gift of \$250 we received from the Four Winds Nature Institute, as well as for soliciting a matching gift from the Mascoma Savings Bank, to improve our school grounds with a wildflower/native plant garden this spring.

With the relatively snowless and mild winter we have had, it has been easy to envision how to construct such a "wild" space and perhaps create two areas which could be connected by a short trail through some woods. Building the area in this manner might increase interest for students and wildlife and could provide slightly different kinds of habitats. I am hopeful that, with the talent and expertise of several members of the PTA, we will quickly have a plan that can "grow" in time, providing many opportunities to enhance lessons brought to our students through the Four Winds units.

Needless to say, the staff and Four Winds Parent Volunteers have always found it a pleasure to work with you. We are very grateful for your work and for your support of our efforts to bring our students closer to their natural world.

Many thanks for supporting us with this particular project.

Sincerely yours,

*Ros Seidel*
